 - a. Privileges of username: Full
4. Location of workflow service: tcp://XYZ-web:8001/cDeltaController
5. Location of workflow error log: [J:\CLIENTS\XYZ Review\Projects\03-09 Bill Management \(Delta\)\Delta updates\Log](J:\CLIENTS\XYZ Review\Projects\03-09 Bill Management (Delta)\Delta updates\Log)

Support

1. User Guide w/Client Install : <\\advocate-sn2\client data\CLIENTS\XYZ Review\Support\Delta System\User Guide\User Guide w client install.docx>
2. User Guide: <\\advocate-sn2\client data\CLIENTS\XYZ Review\Support\Delta System\User Guide\User Guide.docx>
3. Add new client to Delta System <\\advocate-sn2\client data\CLIENTS\XYZ Review\Support\Delta System\Add New Client to Delta System.docx>

Overview

The Delta Management system is used to manage workflows that sort through directories. Within these directories are documents that customers upload to these directories via FTP and are to be reviewed by XYZ Corp. We have created a new web based version of the system for ease of use and access.

Technologies

6. NAS1 : NAS
 - a. Directories of files: \\nas1\FTP Sites
7. XYZ-SQL1: Web Server (10.0.15.28)
 - a. URL: <http://delta.XYZreview.com>
8. Location of SSIS package: XYZ-SQL1
9. Local SSIS: TFS - \$/XYZ_Review_DeltaSystem/Code/MAIN/Delta System for SQL2008

Support
